## About Me

I am a 3D modeler based in Ottawa and an Algonquin College graduate. My love of animation is driven by my love for storytelling. As long as I'm making art and helping tell a story, I'm happy. I first picked up 3D modeling in college and it just clicked; more than anything else I can spend hours building a characters, props and an environments.

## Experience

LCBO, Huntsville - Retail  
April 2025 - December 2025
